

What is City Link?

City Link Festival Copenhagen 2017 21st-24th September

City Link is a movement celebrating cities and people who live in them.

Everyone has a unique perspective on how their city should be. City Link connects with a new city and people each year, hosting a festival to explore how to make better, more inclusive cities through urban and cultural experiments - to inspire each other, creatives, public sector and private developers

“Building Bridges”

This year’s theme will explore how we can build bridges in our cities physically, socially, locally, internationally, culturally and professionally.

City Link’s community is a mix of artists, citizens, architects, sociologists, musicians, writers, urban planners, young, old, all are welcome!

Where? Copenhagen’s “South Harbour” - home to a diverse mix of old and new neighbourhoods and an exciting cultural scene.

City Link so far...

- 4 cities + counting: Hamburg, Copenhagen, Edinburgh and Istanbul.
- 2 festivals
- 10 study trips
- 35+ city spaces activated
- 70+ events
- 300+ collaborators
- 3500+ participants

Travel to Copenhagen!

City Link welcomes local and international participants!

Why should you attend?

City Link is a way to share your work on a local and international platform; explore the city through new perspectives; learn from, and inspire others; make friends and future collaboration partners.
